5/5/94

Dear Raphaela,

Thanks for your 5/3, the enclosed Mooney release, and the thin batch of retyping here two days or so ago. If there are any other copies of this, which appears to have been printed, I can use them to insert in my mail. Otherwise I'll have to xerox this and lose the color that adds to its attractiveness. And its bottom lines.

Sam Silver has already written the editors/or publishers of at least six major magazines, which will mean nothing, and he even sent the Times managing editor a copy of the book with a letter.

I've sent a copy to Michael Jackson's producer, with a short letter.

Thanks and best
Harold
